2018

Join us for the 16th European Congress of DentoMaxilloFacial Radiology in Lucerne in 2018.

Welcome to Lucerne,

We have the pleasure of inviting you to attend **16th European Congress of DentoMaxilloFacial Radiology** to be held in Lucerne, Switzerland, from **13-16 June 2018**.

The conference will take place at the «The Swiss Museum of Transport in Lucerne» – the one-of-a-kind, Verkehrshaus' - just a few metres away from the beautiful shores of lake Lucerne. An outstanding social programme has also been arranged for accompanying guests and families. One of the meetings social highlights will certainly be the «Swiss Evening» to be held on Thursday that will feature traditional dishes and other surprises that make up for our famous «Swissness».

There are direct flights from all European countries to Zurich. From the airport at Zurich-Kloten, there is a direct train link to Lucerne with regular departures. The journey time between the airport and Lucerne is just over 1 hour. Alternatively, participants to the conference may also fly in to Basel or Geneva with direct train connections to Lucerne.

The theme of the Pre-Congress is **'The Virtual Patient: The crucial role of IMAGING in the digital workflow'** and we have invited international keynote speakers to present and also discuss «hot topics» in the field together with stakeholders from the industry. The main congress will then deepen this with numerous scientific presentations from colleagues all over the world. The congress will also include a junior image viewing session and a round table discussion session.

We look forward to seeing you in Lucerne. We are certain you will have an excellent time!

Dorothea Dagassan

Michael Bornstein
